

CURRICULUM VITAE

EYAL AHARONI, PH.D.

Associate Professor of Psychology, Philosophy, and Neuroscience
Department of Psychology
College of Arts & Sciences
Georgia State University
P.O. Box 5010
Atlanta, GA 30302-5010
eaharoni@gsu.edu
404-413-6200

EDUCATION AND PROFESSIONAL EXPERIENCE

Education

B.A., Psychology
University of California, Santa Barbara, 2000

B.A., Religious Studies
University of California, Santa Barbara, 2000

Ph.D., Developmental and Evolutionary Psychology,
University of California, Santa Barbara, 2009

Professional Credentials

2020 - present, Associate Professor with Tenure, Georgia State University
2016 – 2020, Assistant Professor, Georgia State University
2013 – 2015, Associate Behavioral Scientist, RAND Corporation
2009 - 2012, Postdoctoral Fellow, Mind Research Network for Neurodiagnostic
Discovery
2009 – 2012, Postdoctoral Fellow, University of New Mexico Psychology
2007 - 2009, Research Fellow, MacArthur Foundation's Law and Neuroscience Project
2007, Instructor, University of California, Santa Barbara Psychology
Advanced Research Methods
2002 - 2007, Teaching Assistant, University of California, Santa Barbara Psychology
2001 - 2002, Research Staff, University of California, Santa Barbara Psychology
Research Center for Virtual Environments and Behavior
1999 - 2001, Research Assistant and Technician, University of California, Santa
Barbara Psychology
Research Center for Virtual Environments and Behavior
Institute for Social, Behavioral and Economic Research
2000 - 2000, Behavioral Tutor – children with mental disabilities

Affiliations

2016 – present, GSU Neuroscience Institute
2016 – present, GSU Department of Philosophy
2013 – present, Mind Research Network, Collaborator

SCHOLARSHIP AND PROFESSIONAL DEVELOPMENT

Honors and Awards

Outstanding Poster Award, International Neuroethics Society conference, 2019
Poster Award, Society for Judgment & Decision Making conference, 2018
Elsevier Poster Award, International Neuroethics Society conference, 2017
Duke Summer Seminars in Neuroscience & Philosophy, 2016
MacArthur Law & Neuroscience Project travel award, 2009
MacArthur Law & Neuroscience Project course training award, 2008
MRN fMRI Image Acquisition and Analyses Course Certification, 2008
UCSB Psychology Professional Development Award, 2007
Gruter Institute Conference Travel Grant, 2005 – 2007
SPSP Student Travel Award, 2004
UCSB Distinction in the Major of Psychology, 2000
UCSB High Honors in Psychology, 2000
UCSB High Honors in Religious Studies, 2000
UCSB Dean's Honors in Academic Performance, 1998 – 2000

GRANT SUPPORT - EXTERNAL

Grant #: 1829495 (PI) 9/2018 - 8/2021
Amount: \$538,000
Funding Source: National Science Foundation
Title: Neurobiologically-informed risk assessment: An empirical examination
Description: Investigates how measures of brain function contribute to and predict risk of violent and antisocial behavior

Grant: Duke Summer Seminars in Neuroscience & Philosophy (PI) 8/2015 - 7/2016
Amount: \$30,000
Funding Source: Templeton Foundation

Title: Testing effects of framing on punishment decisions involving violence risk assessment

Description: Investigates effects of how risk evidence is framed on criminal sentencing decisions

Grant #: 2014-MU-CX-K003 (Co-PI) 1/2015 – 1/2016

Amount: \$1,996,464

Funding Source: National Institute of Justice

Title: National Law Enforcement Corrections and Technology Center System Small, Rural, Tribal and Border Regional Center

Description: Establishes national research center to identify technology needs of underserved criminal justice agencies and to evaluate and disseminate information about effective solutions to meet those needs.

Grant #: 2013-IJ-CX-0002 (PI) 10/2013 – 10/2014

Amount: \$337,306

Funding Source: National Institute of Justice

Title: Blind Collaborative Justice: Testing the Impact of Expert Blinding and Consensus Building on the Validity of Forensic Testimony

Description: Conducted survey-based experiment to test the extent to which the accuracy of expert testimony is improved by (a) blinding experts to the hiring counsel's identity and (b) providing consensus feedback from an expert panel.

Grant #: F32MH090668 - 01 (Co-PI) 2010 – 2011

Amount: \$96,190

Funding Source: National Institutes of Mental Health

Title: Avoidance Learning in Psychopaths

Description: Examined the neural substrates of passive avoidance learning behavior in high and low psychopathy offenders using functional magnetic resonance imaging.

Grant: Mind Research Network independent research award (PI) 2010

Amount: \$41,540

Funding Source: Department of Energy Sub-Award

Title: Neural Mechanisms of Passive Avoidance Learning in Psychopaths

Description: Examined the neural substrates of passive avoidance learning behavior in high and low psychopathy offenders using functional magnetic resonance imaging.

Grant: Law & Neuroscience Project research grant (PI) 2008 – 2009

Amount: \$6,000

Funding Source: MacArthur Foundation Sub-Award

Title: How well do psychopaths know and appreciate moral wrongfulness?

Description: Experimental study of the ability of high- and low-psychopathy offenders to distinguish between moral and non-moral transgressions.

GRANT SUPPORT - INTERNAL

Grant: Next Generation Grant (Co-I) 2020 - to present

Amount: \$490,000

Funding Source: Georgia State University

Title: Artificial Intelligence Augmented Systems

Description: Research, development, and ethical analysis of AI in augmenting education, information technology, healthcare, financial technology and logistics

Grant: Brains & Behavior Research Seed Grant (PI) 8/2015 - 7/2016

Amount: \$28,000

Funding Source: Georgia State University

Title: An empirical examination of neurobiologically informed risk assessment

Description: Examines utility of neurobiological models in assessing the risk of persistent antisocial behavior

Grant: Idea Showcase Award (PI) 2013

Amount: \$10,000

Funding Source: RAND Corporation

Title: Participatory Monitoring: Offender Adherence in a Digital Age

Description: Developed mobile app mockup designed to reduce parole violations by incentivizing voluntary collaborative GPS monitoring.
