---

## EDUCATION

### **Ph.D. in Psychology and Neuroscience**

Duke University  
Systems & Integrative Neuroscience Program  
Certificate in College Teaching  
Dissertation: *Developmental programming of brain and behavior: A role for the innate immune system of the placenta and brain*  
Faculty Mentor: Dr. Staci D. Bilbo

May 2015  
Durham, NC

### **B.S. in Animal Behavior; Minor in Chemistry**

Southwestern University  
*Summa cum laude*  
Capstone Research: *Female mate choice and differential reproductive success in rats*  
Faculty Mentor: Dr. Fay A. Guarraci

May 2010  
Georgetown, TX

## PROFESSIONAL APPOINTMENTS

### **Assistant Professor of Neuroscience**

Georgia State University  
Neuroscience Institute  
Center for Neuroinflammation and Cardiometabolic Diseases

January 2021—Present  
Atlanta, GA

### **Visiting Assistant Professor of Neuroscience**

University of California- Irvine  
Departments of Pediatrics and Anatomy/Neurobiology

January—June 2021  
Irvine, CA

### **Postdoctoral Fellowship in Neuroscience**

University of California- Irvine  
Departments of Pediatrics and Anatomy/Neurobiology  
Faculty Mentor: Dr. Tallie Z. Baram

June 2015 – December 2020  
Irvine, CA

## RESEARCH FUNDING

### **Current**

**Title:** *Defining the Role of Microglia in the Synaptic Rewiring of the Hypothalamus by Early-Life Adversity*

**Funding Source:** NIH (NIMH) K99/R00 Pathway to Independence Grant; 1K99MH120327

**Grant Period:** August 2019- July 2024

**Amount:** \$109,000/year in K99 phase; \$249,000/year in R00 phase

**Title:** *Elucidating the role of the microglial phagocytic receptor Mer in synaptic pruning of stress-sensitive neurons*

**Funding Source:** Center for Neuroinflammation and Cardiometabolic Diseases (CNCD) Seed Grant, Georgia State University

**Grant Period:** September 2021- June 2022

**Amount:** \$15,000

## **Completed**

**Title:** *Developmental Programming of Microglia-specific Functional and Transcriptomic Changes by Early-Life Adversity*

**Funding Source:** NARSAD Young Investigator Grant, Brain & Behavior Research Foundation

**Grant Period:** January 2019- January 2021

**Amount:** \$35,000/year

## **PEER-REVIEWED PUBLICATIONS**

**Bolton, J. L.**, Short, A. K., Othy, S., Kooiker, C. L., Shao, M., Gunn, B. G., Beck, J., Bai, X., Law, S. M., Savage, J. C., Lambert, J. J., Belelli, D., Tremblay, M.-E., Cahalan, M. D., & Baram, T. Z. (*Under Review*). Early-stress induced impairment of microglial pruning of excitatory synapses on developing CRH-expressing neurons exacerbates adult stress reactivities. Preprint posted on bioRxiv on 7/22/21 at doi: <https://doi.org/10.1101/2021.07.21.453252>.

## BOOK CHAPTERS

Short, A. K., **Bolton, J. L.**, & Baram, T. Z. (2020). Mechanisms by which early-life experiences promote enduring stress resilience or vulnerability. In: Chen A, (ed). *Stress Resilience: Molecular and Behavioral Aspects* (pp. 165-181). San Diego, CA: Elsevier Inc./Academic Press.

## INVITED PROFESSIONAL TALKS

**Bolton, J. L.** (2021). Impaired microglial pruning of excitatory synapses on developing CRH-expressing hypothalamic neurons exacerbates stress responses throughout life. *American College of Neuropsychopharmacology Meeting*, San Juan, Puerto Rico. **\*Selected as oral Data Blitz presentation from all submitted abstracts.**

**Bolton, J. L.** (2021). Early-life stress-induced impairment of microglial pruning of excitatory synapses on developing CRH-expressing neurons exacerbates adult stress reactivity. *Child Health Institute of NJ Science Seminar Series*, Rutgers University, New Brunswick, NJ.

**Bolton, J. L.** (2021). How early-life experiences sculpt brain circuits to promote stress resilience or vulnerability: Role of microglia. *Douglas Neuroscience for Mental Health Seminar Series*, McGill University/Douglas Hospital, Montreal, Canada.

**Bolton, J. L.** (2021). How early-life experiences sculpt brain circuits to promote resilience or vulnerability: Role of microglia. *Georgia Tech Neuro Seminar Series, Wallace H. Coulter Department of Biomedical Engineering (joint between Georgia Tech and Emory University)*, Atlanta, GA.

**Bolton, J. L.** (2021). The role of microglia during brain development in shaping future mental health. *What's New in Atlanta Neuroscience, Atlanta Chapter of Society for Neuroscience*, Atlanta, GA.

**Bolton, J. L.** (2021). Defining the role of microglia in the synaptic rewiring of the hypothalamus by early-life adversity. *Workshop on Steroid Hormones and Brain Function*, Breckenridge, CO. **\*Invited as Young Investigator speaker.** Delayed to 2022 due to COVID-19.

**Bolton, J. L.** (2020). The role of microglia in the sculpting of developing stress circuits by early-life adversity. *Alcoholism and Stress: A Framework for Future Treatment Strategies Meeting*, Volterra, Italy. **\*Moved to 2023 due to COVID-19.**

**Bolton, J. L.** (2020). How early-life experiences sculpt brain circuits to promote resilience or vulnerability: Role of microglia. *Neuroscience Institute Seminar Series*, Georgia State University, Atlanta, GA.

**Bolton, J. L.** (2019). How early-life experiences sculpt brain circuits to promote resilience or vulnerability: Role of microglia. *Centre de Recherche du CHU de Québec Seminar Series*, Laval University, Quebec, Canada.

**Bolton, J. L.** (2019). The role of microglia in synaptic rewiring by early-life adversity. *PsychoNeuroImmunology Research Society Annual Meeting*, Berlin, Germany. **\*Selected as oral presentation from all submitted abstracts.**

**Bolton, J. L.** (2019). Sex-specific perinatal programming of neuro-immune function by the early-life environment. *Experimental Biology Annual Meeting*, Orlando, FL. **\*Invited as Featured Speaker of APS Session.**

**Bolton, J. L.** (2019). How early-life experiences sculpt brain circuits to promote resilience or vulnerability: Role of microglia. *Department of Psychology and Neuroscience Seminar Series*, University of Colorado, Boulder, CO.

**Bolton, J. L.** (2018). Developmental programming of brain & behavior by early-life environment: A role for microglia. *Virginia Tech School of Neuroscience Seminar Series*, Virginia Polytechnic Institute & State University, Blacksburg, VA.

- Bolton, J. L.** (2018). Mechanisms of synaptic rewiring by early-life adversity. *Neurobiology of Stress Meeting*, Banff, Canada. **\*Selected as one of six Postdoctoral Fellow Speakers from all submitted abstracts.**
- Bolton, J. L.** (2018). The role of microglia in synaptic rewiring by early-life adversity. *Hewitt Foundation Annual Symposium*, The Salk Institute, La Jolla, CA.
- Bolton, J. L.** (2017). The role of microglia in synaptic rewiring by early-life adversity. *Biology Departmental Seminar Series*, Department of Biology, California State University, Long Beach, CA.
- Bolton, J. L.** (2017). The role of microglia in synaptic rewiring by early-life adversity. *Postdoctoral Research Symposium: "Postdocs at the Forefront"*, University of California- Irvine. **\*Selected as one of nine "TED-style Talks" from all abstract submissions, awarded 2<sup>nd</sup> place in talk competition.**
- Bolton, J. L.** (2017). Modulation of brain synapses by early-life experiences governs adult phenotype: The role of microglia. *Hewitt Foundation Annual Symposium*, The Salk Institute, La Jolla, CA.
- Bolton, J. L.** (2016). The role of microglia in synaptic rewiring by early-life stress. *Progress in Neuroscience (PiN) Departmental Seminar Series*, Department of Anatomy & Neurobiology, University of California-Irvine.
- Bolton, J. L.** (2015). Western diets during gestation and lactation: A novel model for postpartum depression and sex-specific developmental programming? *Organization for the Study of Sex Differences Annual Meeting*, Palo Alto, CA. **\*Selected as an "Elizabeth Young New Investigator Award" oral presentation.**
- Bolton, J. L.** (2015). Neuro-immune interactions in development and beyond: Role of the early-life environment and implications for adult health disparities. *Systems & Integrative Neuroscience Brown Bag Series*, Duke University.
- Bolton, J. L.** (2015). Neuro-immune interactions in development and beyond: Role of the early-life environment and implications for adult health disparities. *University of Massachusetts Medical School Neurobiology Department Seminar*, Worcester, MA.
- Bolton, J. L., Huff, N. C., Smith, S. H., Mason, N., Foster, M., Auten, R. L., & Bilbo, S. D.** (2014). Maternal stress exacerbates the effects of prenatal air pollution exposure on offspring anxiety, cognition, and neuroimmune function in a sex-specific manner. *44<sup>th</sup> Annual Society for Neuroscience Meeting*, Washington, D.C. **\*Selected for a nanosymposium oral presentation and press conference.**
- Bolton, J. L., Simmons, L. A., Wiley, M., Ryan, B., Truong, S., Bilbo, S. D.** (2014). Western diets during gestation and lactation: A novel model for postpartum depression and developmental programming? *Shaping the Developing Brain: Prenatal through Early Childhood, 5<sup>th</sup> Annual Aspen Brain Forum*, New York, NY. **\*Selected as a "Hot Topic Talk".**
- Bolton, J. L., Auten, R. L., & Bilbo, S. D.** (2014). Prenatal air pollution exposure induces sexually dimorphic fetal programming of metabolic outcomes in adult offspring. *4<sup>th</sup> Annual Prenatal Programming and Toxicity Meeting*, Boston, MA.

## HONORS AND AWARDS

- Robert J. Handa Young Investigator Award, Workshop on Steroid Hormones and Brain Function, 2022, Full reimbursement for conference/travel
- ACNP Travel Awardee, American College of Neuropsychopharmacology, 2019, Full reimbursement for conference/travel
- PNIRS Trainee Scholar Award, Psychoneuroimmunology Research Society, 2019, \$500 travel award
- NARSAD Young Investigator Award, Brain & Behavior Research Foundation, Jan. 2019- Jan. 2021, \$35,000/year grant
- University of California-Irvine Postdoctoral Research Symposium, TED-style Talk Competition- 2<sup>nd</sup> place, Oct. 2017
- Keystone Symposia Scholarship, funded by the Elkes Foundation, 2016, \$1,200 travel award
- George E. Hewitt Foundation for Biomedical Research Postdoctoral Fellowship, UC Irvine, Oct. 2015- Sep. 2018, \$55,000/year stipend + \$5,000/year for travel/research funds
- Organization for the Study of Sex Differences Elizabeth Young New Investigator Award, 2015, \$1,000 travel award
- Duke University Dean's Award for Excellence in Mentoring, 2015, \$2,000 award
- New York Academy of Sciences Early Career Investigator Travel Fellowship, 2014, \$820 travel award
- Duke Consortium of Neuroscience Graduate Programs Brainaroo "Most Interdisciplinary" Poster award, 2013, 2014; "Best in Show" Poster award, 2015
- Society for Behavioral Neuroendocrinology Travel Award, 2013, \$500 travel award
- Duke Women in Science & Engineering Research Symposium Best Poster Presentation, 2012, \$100 travel award
- Claire Hamilton Graduate Student Conference Travel Award, Duke University, 2010, \$200 travel award
- Society for Women's Health Research Donald G. and Darel Stein Fellowship, 2012, \$1,000 travel award
- National Science Foundation Graduate Research Fellowship (GRFP), Duke University, Jan. 2011- May 2014, \$30,000/year

James B. Duke Fellowship, Duke University, Sep. 2010- May 2014, \$5,000/year stipend  
H. Wayne Ludvigson Memorial Student Prize for best student paper presentations at Southwestern Comparative Psychology Association Annual Meeting, 2010, \$100 prize  
National Science Foundation Research Experience for Undergraduates, Duke University, May-Aug. 2008, \$4,000 stipend

## RESEARCH EXPERIENCE

**Conte Center, “Brain Programming in Adolescent Vulnerabilities”:** Mentor Dr. Tallie Z. Baram July 2015 – June 2021  
University of California-Irvine, NIH P50 MH096889 Irvine, CA  
\*2018 Team Science Award Winner, Institute for Clinical and Translational Science, UC Irvine

**Bass Connections Brain and Society Interdisciplinary Research Project, “Maternal Nutrition and the Developing Brain”:** Mentors Dr. Staci Bilbo and Dr. Leigh Ann Simmons May 2013 – May 2015  
Duke University Bass Connections Interdisciplinary Initiative Durham, NC

**Practicum Rotation Project, “Prenatal Air Pollution and the Role of the Placenta”:** January 2011 – April 2013  
Mentor Dr. Richard Auten Durham, NC  
Duke University Systems & Integrative Neuroscience Program

**First Year Project, “Prenatal Air Pollution & Fetal Programming”:** Mentor Dr. Staci Bilbo July 2010 – July 2012  
Duke University Systems & Integrative Neuroscience Program Durham, NC

**Capstone Project, “Female Mate Choice and Differential Reproductive Success in Long-Evans Rats”:** Mentor Dr. Fay Guarraci January 2009 – May 2010  
Southwestern University Animal Behavior Program Georgetown, TX

**Mechanisms of Behavior Research Experience for Undergraduates Program, “Maternal Obesity and Fetal Programming”:** Mentor Dr. Staci Bilbo May – August 2008  
National Science Foundation Fellowship / Duke University Durham, NC

**Animal Behavior/ Neuroscience Lab Assistant and Supervisor** August 2007 – May 2010  
Southwestern University Psychology Department Georgetown, TX

## EXPERIMENTAL APPROACHES/TECHNIQUES

2-photon time-lapse imaging of 3D microglia-neuron interaction in acute brain slices from neonatal transgenic mice  
Scanning electron microscopy (SEM) with immuno-EM of microglia and their interactions with synapses in neonatal mice  
Calcium imaging of microglia in acute brain slices from transgenic mice  
3D light-sheet imaging of optically cleared whole brains (e.g., CLARITY, iDISCO+)  
Flow cytometry and FACS sorting of microglia vs. neurons  
Confocal imaging and 3D reconstruction of triple-labeled cryostat sections from transgenic mice  
In vivo cell-specific manipulation (i.e., microglia vs. neurons) with DREADDs  
In vivo epigenetic manipulation with i.c.v. infusion of NRSE oligonucleotides to inhibit NRSF regulation of downstream genetic targets  
Molecular analyses for DNA, RNA, and protein (i.e., qRT-PCR, RNA-Seq, ChIP, ChIP-Seq, ELISA, HPLC for neurotransmitters)  
Cell culture and organotypic slice culture  
Metabolic analyses in vivo (e.g., glucose measurement, insulin sensitivity testing, multiplex analysis of leptin, insulin, etc.)  
Cognitive and emotional behavioral testing in mice and rats (e.g., novel object location memory, fear conditioning, elevated-plus maze, forced-swim test, open field test, conditioned place preference test for natural and drug rewards)  
Interrogation of sex differences in rodents (e.g., estrous cycle tracking, gonadectomy and hormonal replacement)  
Animal model development for manipulation of early-life experience/environment (e.g., chronic early-life stress, augmented maternal care, prenatal air pollution exposure, maternal high-fat diet)  
Translational experiments via collaborations (e.g., MRI and diffusion tensor imaging of rodent brains for comparison with human brains)

## TEACHING AND MENTORING EXPERIENCE

**Mentor for Neuroscience Graduate Program Research** December 2020—Present  
Georgia State University Atlanta, GA  
**Zuri Ngozi**, December 2020- February 2021 (rotation), February 2021-Present (PhD student)  
**Fadya Mroue Ruiz**, August- October 2021 (rotation PhD student)  
**Bhoomi Desai**, August 2021- Present (thesis MS student)  
**Sara Correa**, August 2021- Present (non-thesis MS student)

**Mentor for Neuroscience Undergraduate Research** June 2021—Present  
Georgia State University Atlanta, GA  
**Brittany Clarke**, June 2021- Present (volunteer)  
**Kendall Missel**, August 2021- Present (University Assistantship Program, Honors student)  
**Urjoshi Kar**, August 2021- Present (University Assistantship Program, Honors student, Presidential Scholar)  
**Jonila Shehu**, August 2021- Present (University Assistantship Program, Honors student)

**Mentor for Interdisciplinary Neuroscience Program for Ph.D. Students** September 2017 – June 2021  
University of California-Irvine Irvine, CA  
**Jaclyn Beck**, September 2017- December 2017 (rotation)  
**Cassandra Kooiker**, June 2018- August 2018 (rotation), May 2019-2023 (MD/PhD student)

**Mentor for Biological Sciences Undergraduate Research Program** September 2015 – June 2021  
University of California-Irvine Irvine, CA  
\*Received training in “How to Effectively Mentor Undergraduate Students in the Research Lab” Workshop (Fall 2015)  
**Manlin Shao**, September 2015- June 2018  
\*Mentored for Undergraduate Research Opportunities Program (internal funding source) and Excellence in Research honors program  
\***Awarded Robert Ernst Prize for Excellence in Research in the Biological Sciences in 2017**  
**Derek Zhiye Yang**, January 2016- June 2017  
**Emily Majorkiewicz**, March 2016- June 2018  
\*Mentored for Undergraduate Research Opportunities Program and Excellence in Research honors program  
**Andrew Quan Minh Dong**, January 2017- June 2018  
**Xinglong Bai**, January 2017- October 2017  
**Keshav Suresh**, September 2017- Present  
\***Awarded Carol and James McGaugh Award for outstanding undergraduate researchers in 2018**  
\*Mentored for Excellence in Research honors program  
**Xinwen Li**, January 2018- Present  
**Yanan Wu**, January 2018- December 2018  
**Catherine Chiou**, June 2018- December 2018  
**Kathleen Guangying Zhou**, June 2018- June 2019  
\*Mentored for Undergraduate Research Opportunities Program  
**Stephanie Min Law**, January 2019- June 2021  
\*Mentored for Summer Undergraduate Research Program and Excellence in Research honors program  
**Johnathan Ho**, January 2019- June 2021  
\*Mentored for Undergraduate Research Opportunities Program  
**Pouria Vadipour**, April 2019- June 2020  
\*Mentored for Undergraduate Research Opportunities Program  
**Erin Card**, April 2019- June 2020  
\*Mentored for Excellence in Research honors program  
\***Awarded Robert Ernst Prize for Excellence in Research in the Biological Sciences in 2020**  
**Graciella Angeles**, January 2020- June 2021  
\*Mentored for Undergraduate Research Opportunities Program  
**Qinxin Ding**, September 2020- June 2021

**Preparing Future Faculty Fellow** June 2014 – May 2015  
Duke University Durham, NC

## INVITED GUEST LECTURES

- “Early-Life Experiences Impact Brain Development and Predict Later Mental Health”, October 8, 2018 & October 7, 2019, Lifespan Development course headed by Dr. Michelle Fortier, University of California-Irvine, Irvine, CA.
- “The Digestive System”, March 30, April 1, and April 6, 2015, Anatomy & Physiology course headed by Dr. Jodie Fleming, North Carolina Central University, Durham, NC.
- “Maternal and Early-Life Environmental Influences on Neuroimmune Development”, March 18, 2015, Mechanisms in Toxicology seminar headed by Dr. Laura Kubik and Dr. Joel Meyer, Duke University, Durham, NC.
- “The Innate Immune System”, September 2, 2014, Behavioral Neuroimmunology course headed by Dr. Staci Bilbo, Duke University, Durham, NC.
- “Sex, Sexuality, and the Brain”, December 6, 2013, Fundamentals of Neuroscience course headed by Dr. Warren Meck, Duke University, Durham, NC.
- “Neuroimmune Interactions in Developmental Programming”, April 3, 2012, Fundamentals of Neuroscience course headed by Dr. Staci Bilbo, Duke University, Durham, NC.

## OTHER PROFESSIONAL DEVELOPMENT ACTIVITIES

“Faculty Success Program” (semester-long faculty bootcamp), National Center for Faculty Development & Diversity, Fall 2021, Georgia State University

“BSL-3 Laboratory Research Certification” (3-day intensive course), National BSL-3 Training Program (UC Center of Excellence; NIH National Biosafety & Biocontainment Training Program), June 2020, University of California-Irvine

“Image Understanding” graduate-level course, Spring 2020, University of California-Irvine

“Bioinformatics and Systems Biology” graduate-level course, Winter 2020, University of California-Irvine

“Epigenetics in Health and Disease” graduate-level course, Fall 2019, University of California-Irvine

“Preparing for a Faculty Career” Certificate Program, 6-week workshop series, Summer 2018, University of California-Irvine

“R Programming”, Computer Science Course X425.20, July-September 2018, University of California-Irvine Extension

“Introduction to Python for Data Analysis”, Computer Science Course X426.62, April-June 2018, University of California-Irvine Extension

“Leading from Within”, Management Course X497.61, January-March 2018, University of California-Irvine Extension

“Introduction to Data Analysis with R” short course (1-day intensive program), Data Science Initiative, December 2017, University of California-Irvine

“Big Data Image Processing & Analysis” short course (1-week intensive program), Center for Complex Biological Systems, September 2017, University of California-Irvine

“Effective Communication” Certificate Program, 7-week public speaking workshop series, Summer 2017, University of California-Irvine

“Responsible Conduct of Research” graduate-level course, Spring 2017 and Fall 2020, University of California-Irvine

UC Irvine Graduate Professional Success for PhD Students and Postdocs in the Biomedical Sciences (funded by NIH BEST), Certificate of Completion (awarded for achieving 20 credits of Professional Development activities), Fall 2015-2016, University of California-Irvine

“How to Effectively Mentor Undergraduate Students in the Research Lab,” Mentoring Workshop Series (6-week program), Fall 2015, University of California-Irvine

BD LSRII Flow Cytometer Independent Operator Training Course, Duke Human Vaccine Institute Research Flow Cytometry and Cell Sorting Facility, July 2014, Durham, NC

The BD Horizon Tour: New Insights for Multicolor Panel Design, Flow Cytometry Workshop, June 12, 2014, Raleigh, NC

“Teaching Behavioral Neuroendocrinology” Workshop, June 25, 2013, Atlanta, GA

Leica SP5 Inverted Confocal Microscope Independent User Training, Duke University Light Microscopy Core Facility, May 2013, Durham, NC

## UNIVERSITY SERVICE & COMMUNITY OUTREACH

Faculty Advisor for inaugural Postdoctoral Association, Georgia State University, September 2021- Present

Member of Institutional Biosafety Committee, Georgia State University, July 2021- Present

Judge for Poster Presentations at Nu Rho Psi Week/The Atlanta Neuroscience Symposium (virtual), Georgia State University, April 2021

Invited Speaker on research and career path for Irvine Unified School District Biomedical Interest Group of high school students, virtual seminar series, December 2020

Panelist for K99/R00 Informational Workshop, Graduate Division, University of California- Irvine, March 2020

Ambassador for the Center for the Neurobiology of Learning and Memory, University of California- Irvine: design, execute, and evaluate neuroscience outreach and education activities in local K-12 schools, October 2017-September 2020; Organizing Committee of Orange County Brain Bee, February 2019- February 2020

Organizer of Trainee Professional Development for UCI Conte Center, University of California-Irvine, May 2018- June 2019

Moderator for Oral Presentations, UCI Undergraduate Research Symposium, University of California- Irvine, May 2018

Panelist for “Balancing Work-Life-Academics-Career Prep” Seminar, Graduate Professional Success in Biomedical Sciences program, University of California-Irvine, August 2017

Judge for Poster Presentations at National Science Foundation Graduate Research Fellowship Symposium, University of California-Irvine, May 2017

Teacher for Neuroscience Day at Samuelli Academy (low-income charter school), Santa Ana, CA, May 2017

Speaker for Brews and Brains Meetup (community organization in Irvine, CA), lay-friendly TED-style talk, “Mom matters: Early-life maternal care shapes the developing brain”, April 2016, December 2016 (Holiday Symposium)

Chair of Planning Committee and Master of Ceremonies for 1<sup>st</sup> Annual Postdoctoral Research Symposium, University of California- Irvine, October 2015- September 2016  
Organizer/Convener for Progress in Neuroscience (PIN) Departmental Seminar Series, Department of Anatomy & Neurobiology, University of California- Irvine, September 2015- May 2019  
Chair of Postdoctoral Association Board, University of California- Irvine, September 2016- July 2019; Vice-Chair of Academic Affairs, September 2015- August 2016  
Postdoctoral Representative on Graduate Resource Center Advisory Council, University of California- Irvine, September 2015- June 2016  
Graduate Student Representative on Bass Connections Interdisciplinary Initiative Advisory Council, Duke University, September 2014-May 2015  
Senior Counselor for Females Excelling More in Math, Engineering, & Science (FEMMES) Capstone Event, Duke University, February 2014  
Volunteer & Booth Coordinator for Museum of Life and Science BRAINS! Event, Durham, NC, October 2013  
Facilitator for Local Schools & Juvenile Detention Center Visits and Open House Demonstration for Brain Awareness Week, Duke University, March 2011; Planning Committee & Open House Coordinator, January-March 2012; Open House Demonstration & Lab Tour Guide, March 2013  
Volunteer in "The Lab" at the Museum of Life & Science, Durham, NC, October 2010- May 2015  
Biology Booth Coordinator and Presenter, Murchison Elementary School, Georgetown, TX, Science & Math Night, January 2010  
Program Chair for "From Every Voice" Student Symposium, Southwestern University, January-April 2008  
DNA Activity Coordinator for Science Workshop for 5<sup>th</sup> Graders, Southwestern University, April 2007, 2008, 2009  
Mentor for 4<sup>th</sup> grade Science & Math Achiever Teams, Southwestern University & Williamson Elementary, January-December 2007

## **PROFESSIONAL SOCIETIES**

American Physiological Society, 2019-2020  
The New York Academy of Sciences, 2014-2015  
Society for Behavioral Neuroendocrinology, 2013-Present  
Organization for the Study of Sex Differences, 2012-Present  
Psychoneuroimmunology Research Society, 2011-Present  
\*Trainee Representative for Nominating Committee, 2018-2020  
Society for Duke Fellows, 2010-2015  
Phi Beta Kappa Honor Society, 2010-Present  
Society for Neuroscience, 2009-Present

## **AD HOC GRANT PROPOSAL REVIEWER**

Southern California Environmental Health Sciences Center, January 2016, November 2016  
National Science Foundation, November 2015- January 2016
